

Preliminary Data Gap Analysis  
Pebble Project Environmental Impact Statement

<b>Resource: Lands</b>			
<b>Project Component</b>	<b>Analysis Component</b>	<b>Description</b>	<b>Data Recommendations</b>
All	Affected Environment, Lands	Detailed land status. The publicly available data from the BLM is 'general', and is accurate only to the scale of one square mile (one Section).	GIS data for land status that is more detailed than the General Land Status available through BLM public information should be obtained.

Data Reviewed

**Land Ownership**

1. BLM General Land Status data (includes 17(b) easements); available for public viewing on the BLM SDMS Land and Resources Map Interface.
2. ADNR Easement Atlases: Bristol Bay, Kenai
3. BLM easement maps

**Land Management**

1. State:
  - a. Bristol Bay Area Plan
  - b. Kenai Area Plan
  - c. Nushagak and Mulchatna Rivers Recreation Management Plan
  - d. Special Use Areas decision documents: Lower Talarik Creek, Kamishak, Lake Clark Coastline
  - e. McNeil River State Game Refuge and Sanctuary Management Plan
2. Federal:
  - a. National Park Service
    - i. Lake Clark National Park and Preserve General Management Plan
    - ii. Katmai National Park and Preserve General Management Plan
    - iii. Alagnak Wild River General Management Plan
    - iv. Alaska Federal Lands Long Range Transportation Plan
  - b. BLM
  - b. CIRI Land Use Policy and Permitting

GIS Layers Needed

1. Detailed land status, if available from PLP, as described above.
